Life Center Youth Director

Dear Interested Applicants,

To give you a feel for who we are at Life Center, I will share with you a few of the things about us and what we strive for as a church community. Our desire is not only for you to be passionate about the job but also about the community.

#WeLoveOurCommunity! We are in a rural area, about an hour and a half from Portland to the south, Seattle to the north, the mountains to the east, and the ocean to the west. There is a lot to do outdoors —bicycling, hiking, camping, fishing, hunting, skiing, etc are some of our community's favorite activities. The community is in a growth and development phase, and we are seeing more and more people moving into the area. Some people move here but commute up to Olympia and Tacoma for work because the cost of living is lower here.

We have a coffee trailer we send out a couple of times a month to give away free coffee at community events. This reflects our mission and our desire to be a part of our community. We are looking for someone (or a couple) who will love our community and love to serve our community as much as we do.

We believe we are supposed to be a growing and changing people! We believe in being REAL: living Real Life together, being Real People, and serving a Real God. Our messages and connect groups are focused on us growing and maturing in our lives, in relationship with God and others, in our giftings and service, and in our faith and trust in God.

We love our Sunday morning times together because worship and fellowship are vital to the church! We are working to grow our connect groups throughout the week and building a stronger church community. Our youth meet on Sunday nights from 6-8pm, and we are working with them to build a youth band. Our goal is to help them grow as worshipers, with the goal of bringing them onto the main church worship team once their skills and personal characteristics have grown to align with our worship team mission and expectations. I lead a team of leaders who currently serve in the youth ministry, and they have rotating responsibilities between leading small groups after the teaching time, and ministering during the teaching portion of our service. Our youth have begun to bring friends, and we desire to see them all raised up to fulfill their God given purposes!

At this time we are offering a part time salary. There are a lot of retail and service jobs in the community at the outlet malls, restaurants, and the revitalized downtown in Centralia. Great Wolf Lodge is also just to the north of us. We are willing to work with your schedule, so you can have supplemental income alongside your church responsibilities. The community is growing, and a new port development with more businesses and jobs is scheduled to be built in 2020 just off of the freeway. We are a growing community on the verge of massive change — in the natural there is great expectation, but in the spiritual there is equal desire for what God has planned in the next season.

We would love to share more with anyone interested and invite you to come visit our church and let us show you around our community!

Sincerely,

Pastor Jonathan Biggers

Life Center
