PRIME

Student Internship

"I never knew that the Bible had so many relevant things to say about what I'm facing in the real world around me. It really stretched me as a person. It helped me think whether I have the right beliefs or the wrong beliefs." **Ben | PRIME Student**

"My son's life was miraculously transformed by the teaching at PRIME. It led him to know he had a purpose and a future, and on top of that, receiving college credit gave him the confidence to pursue more academic goals." **Jennifer Corbus | Parent**

"PRIME took our youth to the next level! Students loved the PBC classes, developed a personal devotional life, served in different ministries, and bonded with each other. Every youth ministry should take advantage of the material and framework provided by PRIME." **David Wilkins | Youth Pastor**

62% of high school students are projected to leave the faith once they graduate.
Don't let your students be that statistic.
